

AMENDMENTS TO THE DRAWINGS

Please substitute the enclosed sheet, labeled “1/3” and “Replacement Sheet,” for the corresponding sheet originally filed in the application.

In response to an objection to the drawings in the Office Action, Figs. 1 and 2 have been amended to show diffuser 32 extending under trim molding 34 and including apertures 33, as described at page 9, lines 6-9. Applicants contend that the skilled practitioner would readily understand the diffuser from the description in the specification as filed, and therefore that the amendments to the drawings merely provide clarification without adding new matter to the case.

Accordingly, it is respectfully requested that the amended drawings be entered, and that the objection be withdrawn.
